

WOOD WITH FSC and PEFC STAMPS

In **GUIL** we support the **sustainability of the environment**. For this reason we give so much importance to the certifications received from the WISA® panels that we use for our platforms. Our panels are 100% birch METSÄ® plywood, which are manufactured in Europe according to the strictest sustainability ethics. The plywood only comes from legal sources and complies with all relevant regulations, including the EU Timber Regulation (EUTR). Therefore, all our panels have the FSC®, PEFC™ certificates endorsed by the DNV.

The importance of the stamps:

These stamps promote the reduction of illegal practices in the production and distribution processes of wood and offers the consumer the option to **choose responsibly**. If we all order products with the FSC® and PEFC™ stamp, we will favour the increase of sustainable forest management. **While there are other stamps which claim to guarantee the sustainable origin of the wood, they are much less demanding with their requirements.**

With the purchase of FSC® and PEFC™ endorsed products, you contribute to environmental protection. **Do it for a sustainable world!**

These certifications are made by non-governmental, independent, private or non-profit organisations.

- **FSC®: (Forest Stewardship Council) guarantees that certified forest products come from forests that are responsibly managed, in accordance with International Standards.**
- **PEFC™: (Programme for the Endorsement of Forest Certification) promotes sustainable forestry to ensure that the world's forests are managed responsibly.**
- **EUTR: European Union Timber Regulation. Its purpose is to serve as a means to fight against illegal logging and the importation of wood and wood products from illegal sources.**

BUREAU VERITAS
Certification

CERTIFICATE

Number: **BV-COC-897631**
BV-CW-897631

Issued: **July 30th, 2018**
Valid until: **July 29th, 2023**

Bureau Veritas Certification certifies that the company:

METSÄLIITTO COOPERATIVE

has implemented a FSC product groups control system according to the Forest Stewardship Council certification system, in the following location:

METSÄLIITTO COOPERATIVE
REVONTULENPUISTO 2
